BLOCKED ARMY PROMOTIONS

The army is pulling all sorts of wires backstage in the senate to break the log-jam against permanent wartime promotions—especially those of General Somervell and General Patton.

The senate military affairs committee some time ago proposed a policy against rushing through permanent promotions in wartime, arguing that temporary promotions were sufficient and that permanent promotions could come after the war when the senate and the public could survey all of an officer's record.

Some senators still remember the manner in which General Pershing was jumped from the rank of captain to brigadier general after he married the daughter of Sen. Francis E. Warren, then chairman of the military affairs committee; and they recall also the resentment this caused in the army.

However, the policy of blocking permanent wartime promotions is being opposed by the army's efficient lobby on Capitol Hill; and recently, a new move was made to put through promotions for Generals Patton and Somervell.

Their names had been before a subcommittee which was adamant against promotion. Patton is now only colonel though holding the temporary rank of lieutenant general. Somervell's rank is similar.

So Chairman Bob Reynolds of the military affairs committee put their names before a subcommittee including himself, Elbert Thomas of Utah, and Warren Austin of Vermont. Significantly sandwiched in between Patton's and Somervell's names is that of General Wainwright, now a prisoner in Japan, whom every senator is anxious to promote. So it will be difficult for the subcommittee to promote one without the other two.

GRILLING GENERAL HERSHEY

Draft director Lewis B. Hershey and manpower boss Paul McNutt came in for some rough handling regarding the bungled draft situation at a closed-door meeting of the house military affairs committee the other day. Members took their hair down and said a lot of things that have been rankling in their bosoms about conflicting draft orders which have promoted confusion.

After the meeting adjourned, the committee announced that it had refused to approve a labor draft bill. Inside fact, however, is that formal action against the labor draft was taken only after the committee had heard a furious grenading against the Hershey-McNutt team, including a demand that both be fired and replaced by a single draft czar.

Chairman Andrew J. May of Kentucky, Rep. Walter G. Andrews of New York, ranking committee Republican, and Reps. Ewing Thomason of Texas, John M. Costello of California, Leslie Arends of Illinois and Forest Harness of Indiana all got in some forthright licks against the fumbling of the manpower and draft program.

The assault was led by Texas' two-fisted Thomason, who declared that one man should be put in complete charge of both military and industrial manpower with the nation at war.

MYSTERIOUS HOSPITAL

There is something awfully mysterious about the war department's determination to get rid of the Breakers hotel in Palm Beach as an army hospital, and the extent to which Attorney General Biddle seems anxious to cooperate.

In order to unravel the mystery, the Truman committee called upon Biddle for the Breakers hotel report prepared by his two-fisted young Assistant Attorney General Norman Littell. Littell, who is in charge of lands acquisition, had pointed to the foolishness of spending a lot of money making a hotel into a hospital and then turning it back to the Florida East Coast railroad just when we are on the verge of a second front and do not know what our casualties will be.

But when Biddle received the Truman committee's request, he got in touch with Rudolph Halley, its acting chief investigator, and asked him to withdraw the request. Halley diplomatically complied.

But next day, when members of the Truman committee heard about it, they called up the justice department and subpoenaed the Littell report.

Whereupon Biddle promptly surrendered. He asked that the subpoena be withdrawn and he finally sent the Littell report to the committee. Meanwhile, the army is holding up its plans to evacuate the Breakers.

Gen. A. C. Wedemeyer, U. S. aide to Lord Louis Mountbatten, complains that he has been sitting in New Delhi with nothing to do but read Sandburg's "Life of Lincoln." Wedemeyer is one of the top strategists in the U. S. army, spent six years in Germany, where he knew General Yodel and other Nazi field marshals. But instead of being put in a place where he could advise on strategy against Germany, he was sent to India, a country about which he knows little.

INDIAN RELICS AND MINIATURES MAKE INTERESTING DISPLAY

A very fine display of Indian relics was recently arranged in the showcase by Elaine Knapp, with the aid of Miss Lewis' art class. The articles were brought back by Mr. and Mrs. Forbes, friends of Elaine, when they returned from a visit to India in 1936.

From the Naga Hill tribe in, Assam, province of British India came the knife, wooden bowls, earrings, woman's pipe, woman's shirt, chief's blanket, man's necklace, and loincloth that students viewed with interest last week.

Last week in the case was an exhibit of miniatures arranged by Elizabeth Freyschlag. A tiny Bible over 100 years old, "The Merchant of Venice" printed on vellum in Venice in 1906, rubbers from the Chicago fair of 1893, and flower pots that were Christmas tree ornaments more than 100 years ago, were only a few of the items of interest on display.

By May 28, "Life With Father" will have had 1,916 performances in New York City, and a total of 4001 performances. John Mason Brown, the distinguished critic, after seeing the comedy at the Empire Theatre in New York for the fifth time, wrote that it had no rival, and that he laughed as much on this occasion as he did on opening night.

This comedy about family life in the Elegant 80's when fathers ruled their household with hands of iron, except when mothers guilelessly got their own way, provokes laughter from young and old.

Tickets are on sale at the Denny-Watrous box office, civic auditorium, Columbia 7087.

how NATURAL GAS helps CONSERVE Oil for War Use

Pacific Gas and Electric Company is now burning natural gas fuel instead of oil in its steam electric plants—to make available over 10,000,000 barrels of oil a year needed by the armed forces and war industries.

In cooperation with the oil companies, and at the request of the Navy, a large gas transmission pipeline has been converted to the transportation of oil from distant fields to San Francisco Bay. This has speeded the safe delivery of 55,000,000 barrels of oil a year and released a large tanker and escort fleet for other war purposes.

To help meet the needs for conservation of oil in-war busy California, the reserve supply of natural gas has been drawn on very heavily. For example, this year the draft on the Rio Vista dry gas field alone will be 160,000,000,000 cubic feet. This amount is equal to the needs of 200,000 families for 16 years. And every 6000 cubic feet of this gas, when it replaces oil, releases a barrel of petroleum for war use.

Superior Judge Del Mutolo

There Should be No Change

As citizens an das members of the legal profession, we cannot emphasize too strongly the necessity of retaining Judge Del Mutolo on the Superior Court bench. He has the deserved respect, admiration and esteem of every member of the Santa Clara County Bar Association, the men who are constantly in attendance in his Court and who are the most competent to pass on the merits of the respective candidates.

We have in Judge Del Mutolo a fne humane character, young enough to be of long service to the community, old enough to have acquired that mature common sense judgment so necessary on the Bench, a man of exemplary habits, and a constant student with such outstanding legal ability that lawyers and laymen alike are assured of thorough competent hearing of the matters before him. None of his decisions have ever been reversed by higher courts.

The people certainly want no change in the Superior Court, and we feel it our duty, both individually and as representatives of the Santa Clara County Bar Association, to urge everyone to vote for Judge Del Mutolo on next Tuesday, May 16th.

DO NOT BE MISLED:

Judge Del Mutolo's opponents **are not running for re-election. Both are Justices of the Peace** and **will still retain their respective offices** if they are not elected to the Superior Court.

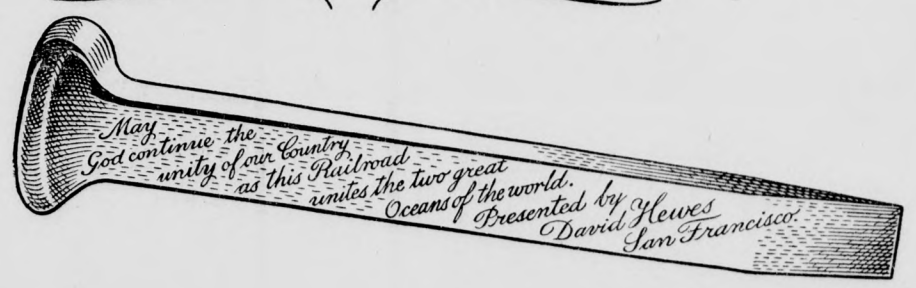
MAY 16
15 YEARS EXPERIENCE ON THE BENCH

This is the 75th Anniversary of the Golden Spike



This is the Golden Spike
It was donated for the occasion by David Hewes of San Francisco. The spike is now the property of Stanford University and is kept in the vaults of the Wells Fargo Bank.

...but we can't take time out to celebrate

Ordinarily we'd make quite a fuss over such an event as the 75th anniversary of America's first transcontinental railroad—of which Southern Pacific is a part. We'd have a "Diamond Jubilee," with ceremonies, celebrations, banquets and all the trimmings.

But in May, 1944, Southern Pacific people will have little time to honor the men who built the first railroad across America and drove its last spike home on May 10, 1869. We're too busy keeping the war trains rolling on our 15,000 miles of line.

The historic line that rounded the northern end of Great Salt Lake to Promontory, where the Golden Spike was driven, was replaced by the Lucin Cut-off. The old rails have long since been torn up and sent to war.

But if it were possible to send a message back through the corridors of Time, we would send the grateful thanks of a railroad at war to those determined men who conquered the Sierra 75 years ago...

...to Leland Stanford, Mark Hopkins, Charles Crocker and Collis P. Huntington, the "Big Four" who pooled their slender resources, convinced Congress that California must be linked by rail with the other United States, and pushed the railroad through in spite of heart-breaking obstacles.

...to the thousands of Chinese workmen who helped lift the line over the Sierra Nevada with nothing but wheelbarrows, picks and shovels, and black powder... who hung from the cliffs in baskets and chipped the roadbed out of solid granite. They helped build a railroad that helps China now.

...to the eight indomitable Irishmen who, on April 28, 1869, laid ten miles and 56 feet of track in a single day—a record that has never been equalled.

The railroad they built is now a vital link in America's supply lines for the war against Japan. The railroad men and women who "keep 'em rolling" today salute the men who accomplished so much with so little, 75 years ago.

Johnson to Be Candidate In 8th Congress District

Sworn Testimony Before House Committee on Ways and Means, 76th Congress . . .

ing; will not those corporations have pulled out of the red on that?

Mr. BUCK. I think it is mere theory, so far as I get it. I have just one more question to ask you. You were a candidate for Congress in the 1936 election in California?

Mr. JOHNSON. That is right.

Mr. BUCK. And, of course, you made a good campaign, but you did not succeed?

Mr. JOHNSON. No, sir; I was down there about a year from San Francisco.

Mr. BUCK. You were endorsed at that time by the Townsend organization?

Mr. JOHNSON. Yes, sir.

Mr. BUCK. And you were running on the Townsend program?

Mr. JOHNSON. In the final election; but in the primary they fought me bitterly.

Mr. BUCK. You finally persuaded them, anyway. And you were opposing Representative Thomas F. Ford at that time?

Mr. JOHNSON. Yes, sir; I was.

Mr. BUCK. Representative Ford received 63,635 votes, Mr. Campbell, the Republican, received 25,497 votes and you running on the Progressive ticket, received 12,874 votes. There were some scattering votes as well. I am just wondering how you interpreted that as to the strength of the endorsement of either Dr. Townsend or your own association? It was not very helpful, was it?

Mr. JOHNSON. I might explain it in this way. I was down there from San Francisco a little over a year. And you know how difficult it is for a man coming in from the outside, from San Francisco especially, running for Congress in Los Angeles. I was not known in the district. I was known as the attorney for the labor commissioner to the State generally, but I was not known in that district. I ran merely with the idea that possibly I might be sucked into the national picture. . . . . That was my purpose in running for Congress—to get a little publicity on it and get back here. And my strategy succeeded.

Just Where Does Mr. Johnson Belong?

5. He CANNOT vote here in this election.
